TITLE: ER/URGENT CARE VISIT NOTE
 DATE OF NOTE: JUN 14, 2006@16:29 ENTRY DATE: JUN 14, 2006@16:29:30
 AUTHOR: FOUCAULT, PAUL D EXP COSIGNER:
 URGENCY: STATUS: COMPLETED

ID/CC: 62 y.o. male with cc of right shoulder and low back pain since earlier this afternoon

HPI: This pt. was apparently asked to leave the downtown library by a security guard. The security guard was walking in front of the pt. escorting him outside via a circulating door when the pt. became partially lodged between the door and the wall. The pt. apparently collapsed to the floor and was evaluated by paramedics at the scene and transferred here for further evaluation. He has a h/o chronic right shoulder and lbp, and notes that the pain in both of these areas is worse since his mishap today. He does endorse pain radiating down his left leg to the knee, though he has experienced this chronically for years. He denies leg numbness/tingling/weakness, saddle anesthesia, or b/b dysfunction.

PMH:

meralgia paresthetica
 tobacco use
 h/o herpes zoster
 htn
 dm type 2
 h/o etoh abuse
 chronic right shoulder pain
 h/o anemia
 chronic lbp
 ptsd

Meds:

- 1) ACETAMINOPHEN 500MG TAB TAKE TWO TABLETS BY MOUTH ACTIVE

07/03/2006 ADDENDUM

late addendum-

pt called er to request that i specify that he was not in an altercation with the security guards of the seattle public library. i was told this information by the ems personnel, who were not present at the time of this patients confrontation with the security guards, and i typed this into my original triage note assuming this information was correct. pt requests that i include in this note that he is a disabled veteran.
